

FRIDAY November 29<sup>th</sup>, 2019

## TIME TOPICS

12:30/14:00 Welcome Lunch

14:05/14:15 Opening of the Seminar

SESSION 1 REGULATION AND VALIDATIONS

14:15/14:35 Regulation and Alternative Methods to Animal Testing: Current status and persepctives

14:35/14:55 Phototoxicity: Recent advancements of a 3D model based assay

14:55/15:15 Genotoxicity on 3D models: New Developments on the EpiSkin model

15:35 / 15:55 Consistency and robustness of 3D models : LDS validation study

Skin Sensitization with 3D models: myth or reality?

15:55 / 16:30 Medical Devices : ISO moves to Alternatives

16:30 / 16:50 Coffee break

15:15 / 15h35

SESSION 2 BEYOND VALIDATION - Part I

16:50/17:10 Eye irritation TG 492. What else?

17:10 / 17:30 HCE: A toolbox for Cosmetic and Pharma Research

17:30 / 17:50 Q & A to the speakers

17:50 End of Day One

19:00 / 22:00 Let's Enjoy Lyon / Social Event

## TIME TOPICS

12:45 / 14:00	Farewell lunch
12:45	End of Seminar
12:30 / 12:45	Q & A to the speakers
12:00 / 12:30	Bio Printing: 3D model 2.0?
11:20 / 12:00	Recent Advances in Epidermal Stem Cells
11:00/11:20	How the CMM technology is widening 3D models capabilities
SESSION 3	INNOVATION
10:20 / 11:00	Coffee break
10:00 / 10:20	Skin MicroBiome : a new frontier ?
09:40 / 10:00	Would Healing : how a 3D model can help
09:00 / 09:20	RHPE: new characterization and multiple uses
SESSION 2	BEYOND VALIDATION - Part II
08:30 /09:00	Welcome Coffee

## 2<sup>nd</sup> EPISKIN INTERNATIONAL SEMINAR

on Safety and Efficacy applications of 3D human tissue models as alternatives to Animal Testing
